"IMPACT"
....
*Better Quality of Mobility
on Wheels...*

- Mobility India (MI); is an independent, democratic and secular disability, rehabilitation and development organization (established in Bangalore, 1994). In 2005, Mobility India (MI) has integrated wheelchair service provision in its rehabilitation services. MI has modified and set up a designated mobility training area to develop the skills of the wheelchair users and at the same time, increased its staff capacity to develop an appropriate wheelchair service provision system.
- MI is leading training and service institute in the field of Rehabilitation includes appropriate wheelchair service provision.
- More than 1500 users are fitted with appropriate wheelchair across India.
- More than 900 health care and rehab professionals trained following WHO wheelchair training package throughout south east Asian countries.

Target Audience: Physiotherapists, Occupational Therapists, Prosthetists & Orthotists, Doctors, Nurses and other health care professionals.
