

# Course on “Approaches in formulation of Research Question and Literature Review”

(Blended Learning Approach)

**Duration:  
4 Weeks**

**Starts from:  
October 5, 2020**

## Introduction:

Formulating a clear and feasible research question is the first part of the research process and is essential prior to creating and conducting a research plan. Its purpose is to articulate an existing uncertainty in an area of concern, while indicating the direction of investigation. Although the world of rehabilitation is teeming with questions and unresolved problems, identifying which are priority and which are feasible to respond to is essential. This highlights the need for a thorough and critical awareness of the literature/research conducted to date.

Mobility India (MI) conducts online workshop for healthcare professionals and students with the aim to familiarise participants on the purpose and approach to formulating a research question including the process of conducting a literature review in a systematic way.

**Dr. Meriel Norris**

PhD, MA, MCSP, FHEA

Reader in Physiotherapy

College of Health, Medicine and Life Sciences,

Department of Health Sciences

Brunel University London

*Resource  
Experts*

**Dr Sushmita Mohapatra**

PhD, MOT-Neuro, MSc-MH&SC, MRCOT,OTR

Lecturer, Occupational Therapy

College of Health, Medicine and Life Sciences,

Department of Health Sciences

Brunel University London

*Limited seats! only first come... first basis...*

## Contents:

- An overview of how research questions come into being
- The purpose of the research question
- Stages of refining a research question
  - Scoping the literature
  - Conducting a literature review
  - Different types of literature review
  - Honing the research question
- The purpose and formulation of a hypothesis, aim and objectives.

- **Live Sessions:**  
**8 hours approx.**
- **Offline Activities:**  
**16 hours approx.**
- **Total Credit Hours - 24**

## Benefits:

- Enhance knowledge on framing research question for budding researchers through experience based learning
- Help integrate evidence based practise in roles like clinical, teaching, decision making etc.
- Evaluation of learning outcomes
- Certificate on successful completion

## For Whom:

*Prosthetist & Orthotist, Physiotherapist, Occupational Therapist, Special Educator  
Rehabilitation Social Worker, Research Scholars and Faculty, members guiding scholars  
Postgraduate students NGOs, etc..*

### Programme Co-ordinator:

**Ms. Ritu Ghosh**

BPO, MBA-HCS,  
ACADEMICS DIRECTOR, EDUCATION AND RESEARCH  
MOBILITY INDIA

### Assistant Co-ordinator:

**Ms. Vennila Palanivelu**

MPT (CBR),  
SR. MANAGER - THERAPY TRAINING  
MOBILITY INDIA

CRE - RCI ACCREDITATION  
(Applied for Online mode)

## REGISTRATION FEES:

**INR. 3000/-**  
(Exclusive GST)

## For Registration:
