

Madesh is 9 years boy, lives with his parents and younger brother at Chamrajnagar, Karnataka. His father is a daily wager and mother is a home maker. He was born without left lower limb. In early childhood he was identified with Club Foot. He is able to sit on his own and do things. But standing and walking is a challenge for him.

He is a smart and very mature kid rather considering his age. He is studying in 4th Grade. He has plenty of friends in the school as well as in the neighbourhood. He is able to write with difficulties but his friends help him in writing. He was provided with a transtibial prostheses for left lower limb and AFO for right lower limb. With the support of Assistive Devices he was able to stand and walk a few steps independently.

Madesh says, "I want to study and become teacher because I like teaching profession". His grandfather Mr. Sridhar Shetty says, "Madesh studies well. In the school teachers love him and take good care of him".
