

# Abstract Guidelines

## Guidelines for the abstract structure

- The acceptable limit for the abstract is a maximum of 500 words and not less than 300 words
- The abstracts which do not meet this word limit will be asked for revisions
- We encourage you to send the abstract in a single paragraph, which is a compendious summary of a paper's substance including its background, purpose, methodology, results, and conclusion.
- Please use an [online abstract template](#) (Refer to the abstract submission page) and follow the format carefully
- Please send in a brief biography together with the Abstract as per online format.

## Selection for presentation

- Abstracts of oral/poster presentations would be reviewed by a panel of experts.
- All abstracts will be reviewed for scientific merit, alignment with the conference mission of technology awareness, and practical/clinical relevance of the findings.
